

Northumbria Healthcare is going back on their promise to save the historic Berwick Infirmary front.

Following a 2016 community campaign, preserving the Infirmary front was a crucial part of the 2020 hospital application. It contained many references to the benefits of saving this much-loved piece of Berwick's heritage.

After completely inadequate consultation, they will now submit an application to demolish everything but the tower.

Shoring up the stranded tower will be expensive.

This vandalism cannot be allowed. Please sign our petition:
